

## How to Obtain Laboratory Access?

1. To request laboratory access, first log in to the **FENS Lab Safety Management System** (<https://fenslabsafety.sabanciuniv.edu/login>).

**The website can be accessed either through the campus network or via the university's VPN service from outside the campus.**

2. Choose *Lab Access* on the menu and go to the *Lab Access Request* tab.
3. Using the drop-down menu, select the lab you want to get access to and click on *Send Request*.
4. Each laboratory requires the completion of specific mandatory trainings. If you have not completed the relevant training, the system will show red warning signs to direct you to **SUCourse** (<https://sucourse.sabanciuniv.edu/plus/login>). These trainings are available through self-enrollment.

5. When you click on the links in red warning signs, you will be directed to the related training on SUCourse. Here, login to the SUCourse system and enroll yourself in all required Lab Safety trainings.

6. Once you have successfully completed the required trainings on SUCourse, you must return to the [Lab Safety Management System](#) and resubmit your request for the relevant laboratory.

7. After submitting your request on the FENS Lab Safety Management System, please refer to the FENS lab specialist below to identify the responsible person for the laboratory you are requesting. Then, send an email to [labsafety@sabanciuniv.edu](mailto:labsafety@sabanciuniv.edu), making sure to CC both the **laboratory supervisor** and **your academic advisor**.

**Your email must include the following information:**

- **The number and name of the requested laboratory (e.g., L001 – Mechatronics Undergraduate Laboratory),**
- **The purpose of use (e.g., chemical usage, equipment operation, experimental work, etc.),**
- **The expected duration of use.**

You will receive a confirmation email ([fensinfo@sabanciuniv.edu](mailto:fensinfo@sabanciuniv.edu)) from the FENS Lab Safety Management System once your request has been received. Your request will be processed within two working days, and your access will be granted accordingly.

**The validity period of the lab safety trainings you have completed through the SUCourse system is two years. At the end of this period, the access to the relevant lab assigned to your card will be automatically revoked. To regain access, please repeat the training and follow the procedures outlined above.**

In case of any issues or delays, please do not hesitate to contact us via:
